RECEIVED IN DOCKETS

STATE OF CALIFORNIA

Energy Resources Conservation
and Development Commission

In the Matter of:

Application for Certification for
the Cosumnes Power Plant
(SMUD)

) Docket No. 01-AFC-19

) PREHEARING CONFERENCE
) STATEMENT

)

Intervenor Kathy Peasha, submits this Pre-hearing Conference Statement.

Topic:

Air Quality

Witness needed for cross-examination—Tuan Ngo, P.E.

Disbursement of air-borne pollutants created by man made basins, particularly where radioactive material is known to be present. Should any resident bordering the gas line be eligible for Natural Gas Service instead of reduction of wood burning stove? Diesel and EPA Standards on lay down area. VIR for all vehicles.

Submission of Evidence: of personal SMOG Check Reports and costs of guidelines: Maximum allowable emissions have lowered standards since 11/1/02 per the Bureau of Automotive Repair.

Facility Design

Hazardous Materials/Land Use

Why will diesel fuel be stored on lay down area? This would only make it a requirement to secure and have lightening of lay down area.

Topic:

Noise

Witnesses needed: Jim Buntin and Dustin Peasha

Monitoring of ambient noise was done when seasonal tractor work was being done at the adjacent winery.

Topic:

Traffic & Transportation

Witnesses needed: James Fore & Eileen Allen.

The use of Clay East Road should not be used for operational and delivery use. This would ensure employee check in and delivery clarification.

FROM OF SERVICE (FILED) 10/22/02 FILED WITH
ORIGINAL FILED WITH CASE NUMBER IN 2/20/03

Topic: **Water Quality & Soils**
Witness needed: Christine Palisoc, an Environmental Scientist with the California Regional Water Quality Control Board.

Facts of water pollutants, free water, water table, lay down area run off; storm water and how it might effect our well water and natural ground water.

Topic: **Facility Design**
Lining System of Basins

I do not know the system design engineer for the lining of basins and storm water overflow. I need the engineer as a witness.

Topic: **Visual Plumes**
Witnesses needed: Dale Edwards, William Walters, Lisa Blenitt, Michael Clayton.

Topic: **Power Plant Site Vicinity:** Use of existing paved area. No visual pictures of how the lay down area will effect visual impact. Night lighting of plumes and lay down area.
